

Electrosurgical Devices

Bioteque offers a full range of electrosurgical devices designed for reliable performance and everyday clinical demands. Driven by quality, safety, and continuous improvement, dependable products and service support are provided for healthcare professionals worldwide.

Leep/Lletz Electrodes

Bioteque loop electrodes are designed for precise cervical tissue excision during LEEP/LLETZ procedures and are available in a wide range of shapes and sizes, including round, square, and specialized loop configurations to meet varying clinical requirements. The loop electrodes support accurate tissue removal while helping to limit unnecessary tissue excision. All electrodes are sterile, single-use, and individually sealed in procedure-ready blister packaging.

SKU	Description	
OB-1512	15mm x 12mm	Loop
OB-1515	15mm x 15mm	Loop
OB-2008	20mm x 8mm	Loop
OB-2010	20mm x 10mm	Loop
OB-2012	20mm x 12mm	Loop
OB-2015	20mm x 15mm	Loop
OB-2020	20mm x 20mm	Loop
OB-2510	25mm x 10mm	Loop
OB-3B	3mm	Ball
OB-5B	5mm	Ball

SKU	Description	
OB-1004S	10mm x 4mm	Square Loop
OB-0505	5mm x 5mm	Loop
OB-0505S	5mm x 5mm	Square Loop
OB-1005	10mm x 5mm	Loop
OB-1007	10mm x 7mm	Loop
OB-1008	10mm x 8mm	Loop
OB-1008S	10mm x 8mm	Square Loop
OB-1010	10mm x 10mm	Loop
OB-1010S	10mm x 10mm	Square Loop
OB-1507	15mm x 7mm	Loop
OB-1510	15mm x 10mm	Loop

Electrosurgical Pencil

SKU	Description	
OB-48020	Electrode Button Pencil	10units/pack
